

# Great King of Evil part 1: preparation

## step 1

# Great King of Evil part 2: legs

## step 3

## step 2

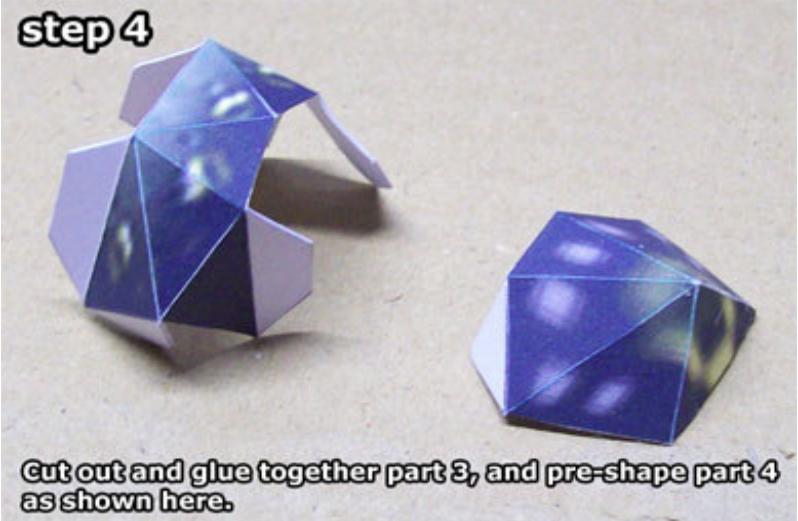

Assemble and glue on part 2.

## step 3

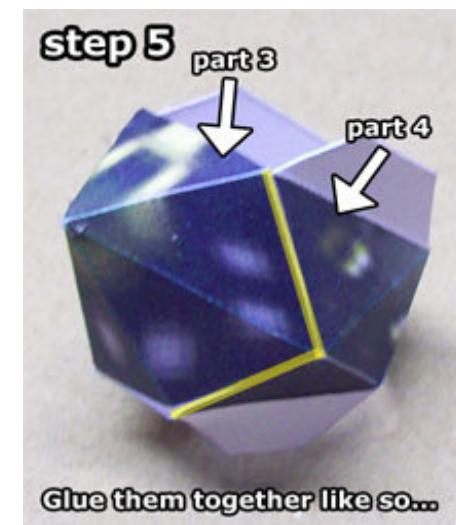

### step 4

Cut out and glue together part 3, and pre-shape part 4 as shown here.

### step 5

Glue them together like so...

### step 6

...and then glue the assembled parts to the rest of the leg!

### step 7

Assemble and glue on part 5.

### step 8

The left leg (parts 6-10) goes together much the same way as the right leg. After you've assembled it, use the glue tab marked "A" to glue the two legs together as indicated on the template.

### step 9

part 11

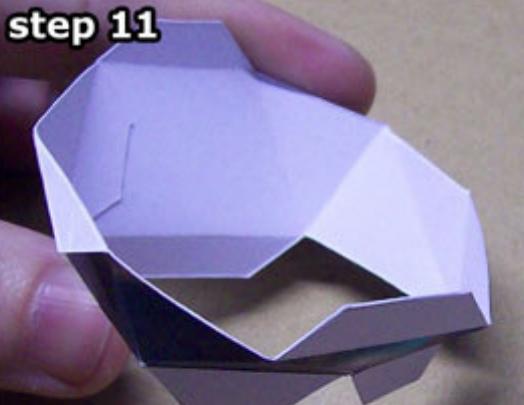

Now glue on part 11 to the back as shown here.

### step 10

Now assemble part 12, but don't close the top yet! That way you can still reach inside while glueing it to the legs.

## Great King of Evil part 3: torso+arms

### step 11

Cut out and glue together the ends of part 13 as shown here.

### step 12

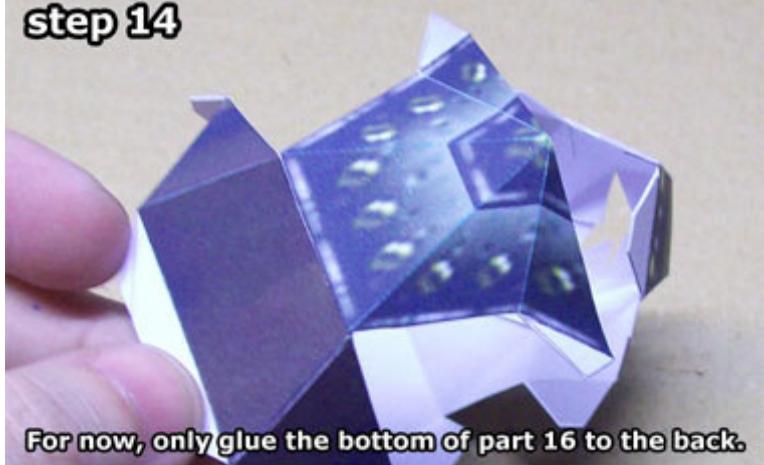

Cut out and glue on part 14 as shown here.

### step 13

Next, part 15.

### step 14

For now, only glue the bottom of part 16 to the back.

### step 15

Glue part 17 to part 16...

### step 16

...and then glue the collar to the neck as shown here. The glue tabs on the neck should be glued underneath part 16 (on top of the glue tabs from part 17) and the two small glue tabs on the collar should be glued on top of the two small glue tabs of the shoulders as indicated in these two pictures.

### step 17

Glue part 18 to the right side of the torso...

### step 18

...and part 19 to the left side.

### step 19

Assemble and glue on part 20 as shown here. Take your time and use the openings to properly glue the parts together using the glue tabs.

### step 20

Assemble and glue on part 21...

### step 21

...and then do the same for part 22.

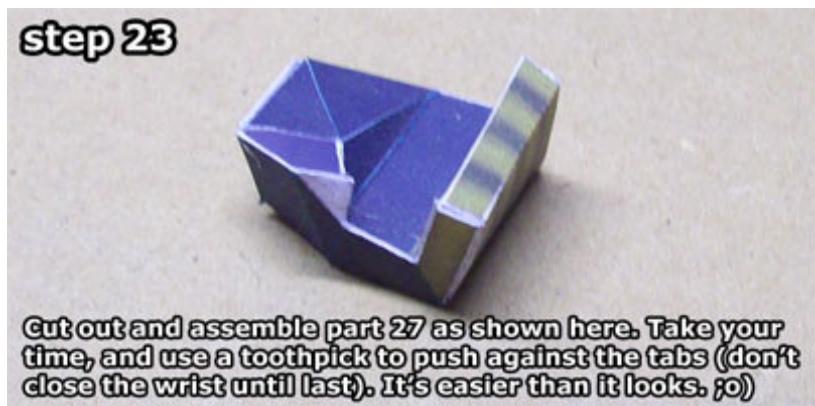

### step 22

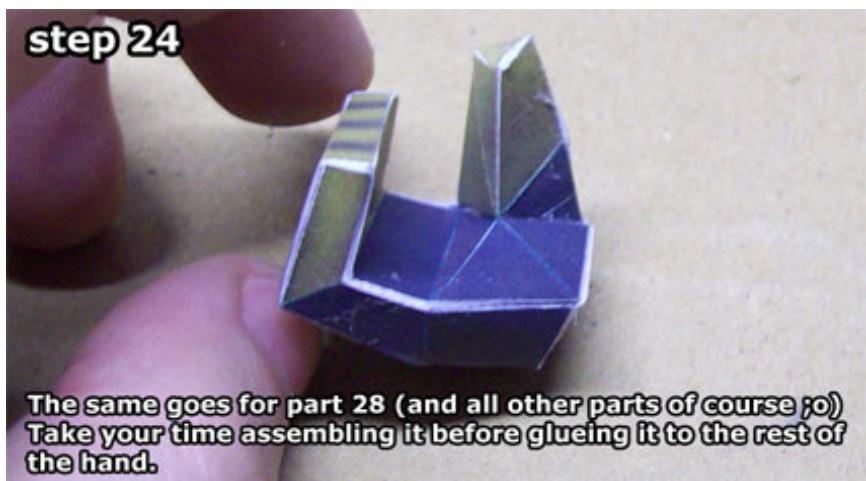

Assemble and glue on the left arm (parts 23-25) in much the same way as you did with the right arm. Also cut out and glue on part 26 to the bottom of the torso (only close it \*after\* you've glued it on).

## Great King of Evil part 4: hands

step 23

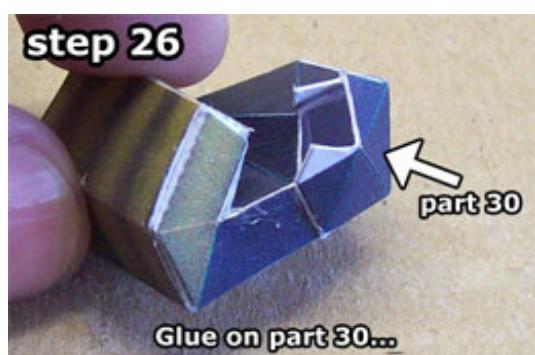

step 24

step 25

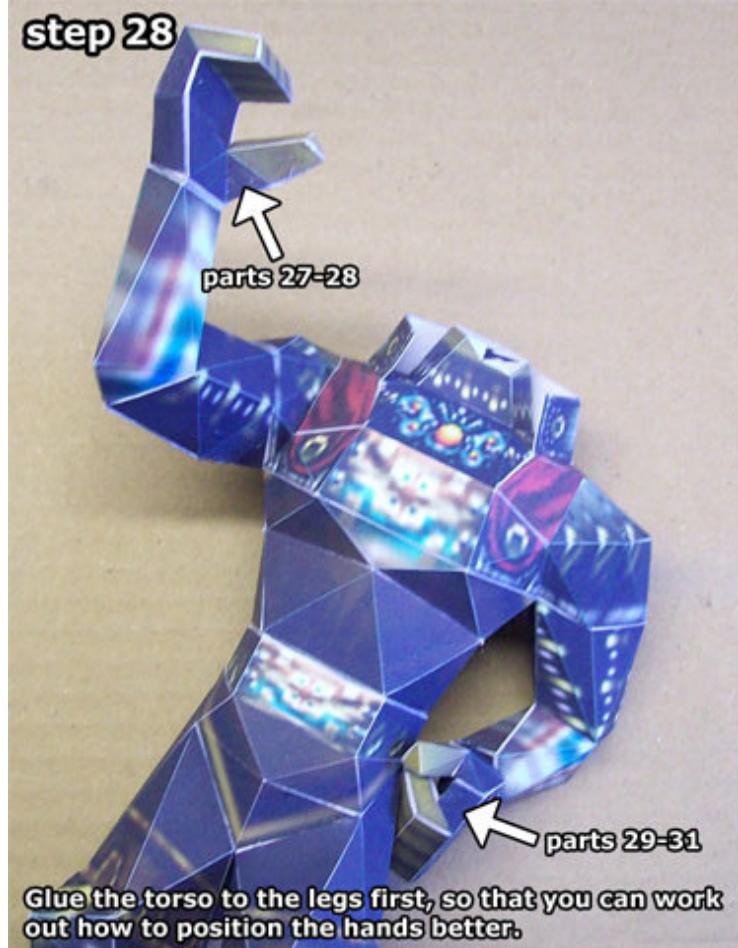

step 26

step 27

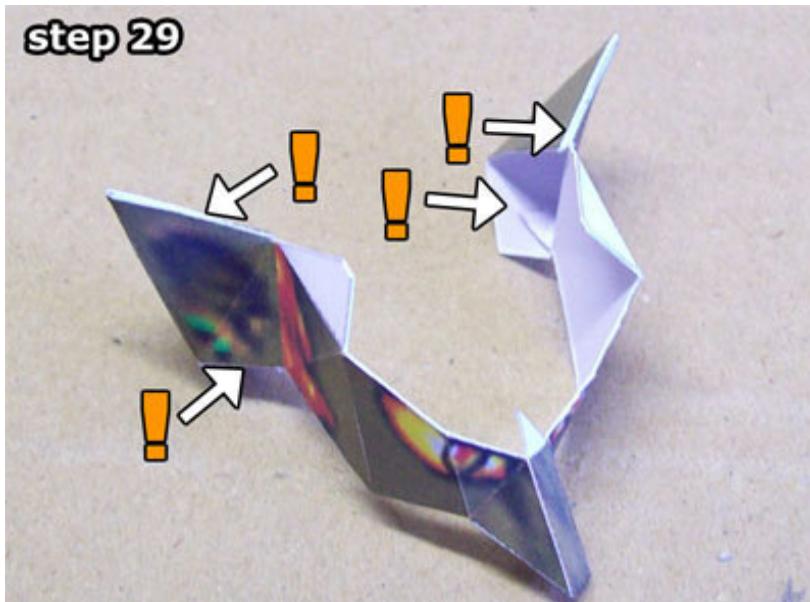

### step 28

## Great King of Evil part 5: head+hair

### step 29

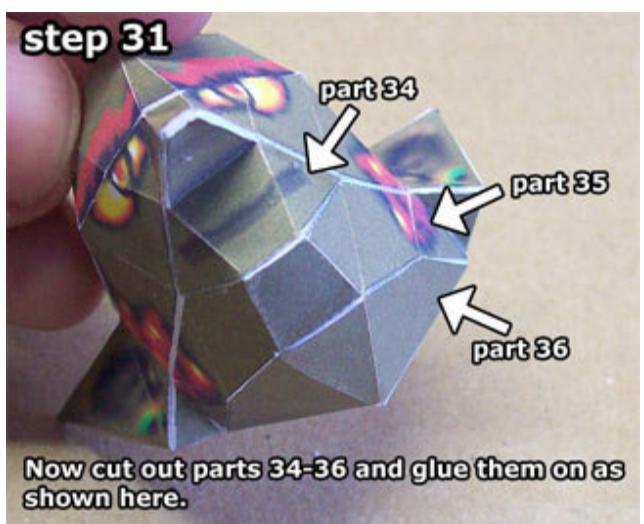

Cut out and assemble part 32 as shown here. Take your time and pay special attention to the ears (check the guides on the template to see how to fold them).

### step 30

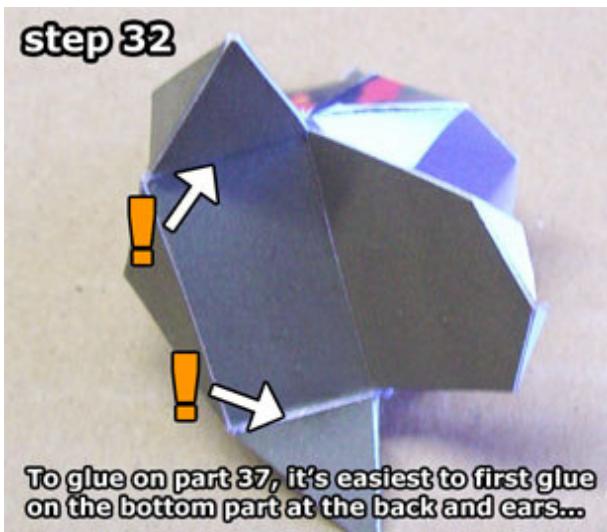

Cut out and glue on part 32 as shown here.

### step 31

Now cut out parts 34-36 and glue them on as shown here.

### step 32

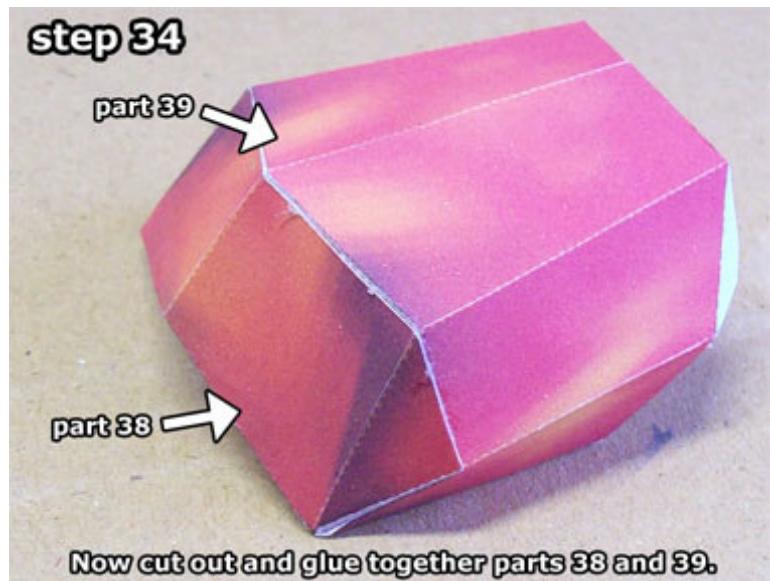

To glue on part 37, it's easiest to first glue on the bottom part at the back and ears...

### step 33

...and then the front.

### step 34

Now cut out and glue together parts 38 and 39.

### step 35

Turn the parts around and glue on part 40.

### step 36

Then turn them back over to glue on part 41.

### step 37

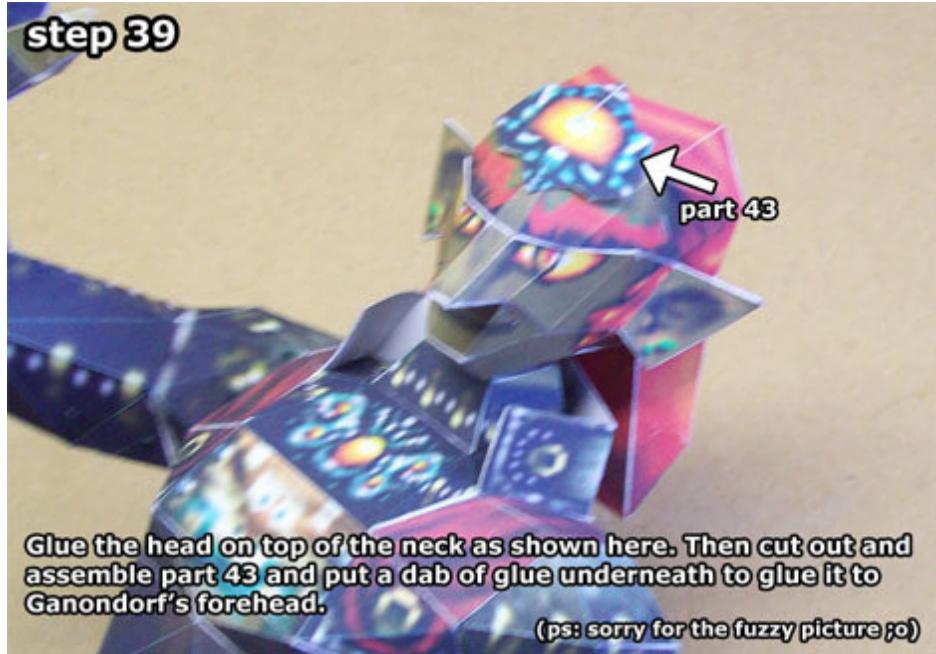

Now glue on the final part of the hair, part 42.

### step 38

Use the glue tabs to glue the hair to the head as shown here. Take your time to make it look as good as you can. ;o)

### step 39

Glue the head on top of the neck as shown here. Then cut out and assemble part 43 and put a dab of glue underneath to glue it to Ganondorf's forehead.

(ps: sorry for the fuzzy picture ;o)

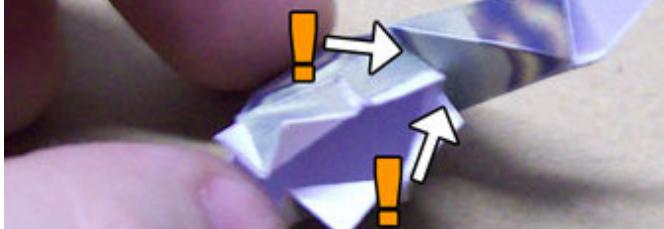

# Great King of Evil part 6: sword

## step 40

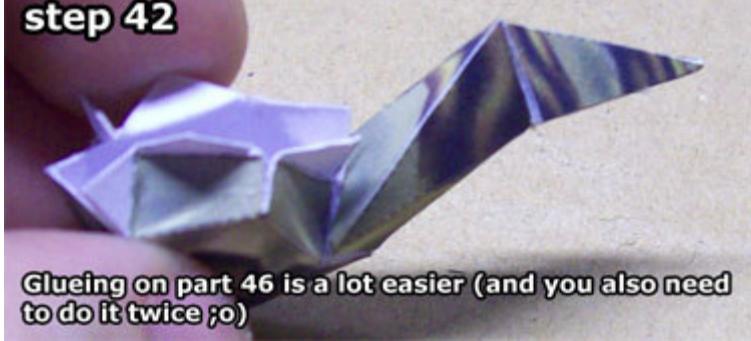

Cut out and assemble part 44 as shown here (note that this only means glueing three of the glue tabs; fold the other ones up )

## step 41

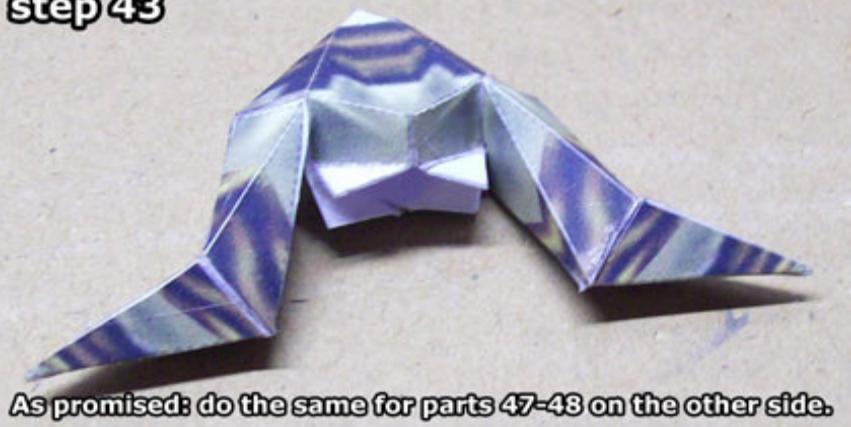

Now for the most difficult part on this entire papercraft model: glueing on part 45 (and you'll have to do it again in a moment, mwahaha...!)  
Use a toothpick to press the glue tabs against the parts.

## step 42

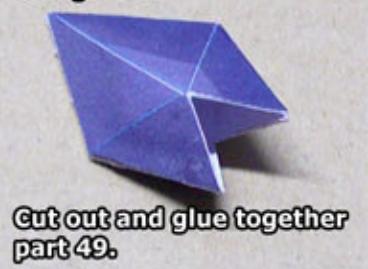

Glueing on part 46 is a lot easier (and you also need to do it twice ;o)

## step 43

As promised: do the same for parts 47-48 on the other side.

## step 44

Cut out and glue together part 49.

## step 45

Next, glue on part 50 (note the dark texture!) so you can glue the blade to the guard.

**step 46**

Now glue on the hilt (part 51).

## Great King of Evil part 7: robe

**step 47**

The robe is entirely optional, Ganondorf doesn't need it to stand. I printed the outside (parts 52-55) on 200 gsm paper for strength and the inside (parts 56-59) on regular printer paper, but you can choose to print only outside if you want to of course.

**step 48**

Now just glue the tips of the robes to Ganondorf's shoulders. Don't use too much glue; if it's just "tacky" you won't have to hold it as long until you can let go. ;o)

 Great King of Evil  
part 8: completion

step 49

That's it! Your Ganondorf papercraft is done!
